## ROAD CREWS AND EQUIPMENT IN READINESS

Road crews and equipment are waiting the coming of Spring weather when they will launch their offensive against present road conditions.

General Construction of Lethbridge has already crews stock piling gravel west of Burnham. Tenders for hard-surfacing will be called after April 1. No new work will be undertaken this year until last year's work is completed. Much of the work planned for last year was not completed due to the short, wet season.

## SALVATION ARMY STAFF BAND TO PLAY AT CALGARY

The premier band of The Salvation Army, the International Staff Band from London, England, will be presenting a program in the Stampede Corral, Calgary, on Monday, May 26th. Some residents of the Pass have expressed a desire to go to Calgary to hear this outstanding musical combination. If 30 people would express their desire to go, a chartered bus would make the trip at just less than \$5.00 per person. Will anyone wishing to go please get in touch with Captain Carey of The Salvation Army in Coleman as soon as possible so arrangements can be completed. Phone 3728.

## E. Tyler C.D. Headquarters Attends Demonstration

Team 2 of the Fire Brigade Service (Civil Defence) are shown attacking the blaze during a demonstration.

A large crowd gathered in the school yard Wednesday evening to witness a demonstration given by the fire brigade service of the Civil Defence organization.

A rough construction was erected against the school wall and old furniture placed in it. The furniture was soaked with inflammable liquids and set afire. Under the direction of J. Malanchuk, town foreman, the two teams, made up of J. Kinney, Jr., C. Clark, H. Zak, Jr., G. Misera and A. DeLuca on one and J. Waverca, F. Omalchuk and W. Holyk on the other, tackled the blaze. Both teams extinguished the fire in about four minutes. A stirrup pump was used to throw water on the blaze and in both instances not more than one pail of water was used.

J. McDonald, controller of the Coleman Civil Defence organization, informed the spectators of the duties of each member of the team. Under his direction the demonstration demonstrated the use of gas-masks.

Mr. E. Tyler of Civil Defence headquarters in Edmonton attended the demonstration and meeting which followed.

Mr. Tyler addressed the organization in the school auditorium and told the members that war is possible at any moment and that with modern aircraft, no city in the continent is invulnerable to A-bomb attack, biological warfare or chemical warfare. If we know what to expect, we can be prepared for it. It is the job of the Civil Defence organization to tell people the protective measures to be taken in dealing with any emergency, as exemplified by the demonstration in the school yard.

## Red Cross Drive Starts Next Week

Plans for the spring Red Cross campaign are now under way. Mr. Shave, Assistant to the Commissioner C.R.C.S. was in the Pass recently to help organize the Red Cross in this district. The campaign will get underway early in April and it is hoped that the drive for funds will be successful again this year.

Canvassers will make a thorough coverage of the district and would appreciate the co-operation of the public. Have your contribution ready when he calls, and save these volunteers the need to cover their territory twice.

Headquarters of the drive for Coleman will be the Coleman Hardware. Anyone wishing full particulars at this date are asked to contact W. Dutil.

The speed of jet and rocket planes in the stratosphere generates heat because of the friction of the air, so that even with temperatures of 60 below zero outside, the cabins would be 111 degrees at 1,000 miles an hour unless cooling mechanisms were used.

## BLAIRMORE TEACHERS ACCEPT WAGE AGREEMENT

In a recent meeting with their school board, Blairmore teachers accepted a new agreement. Under their new schedule the minimum was raised from \$1800 to \$1900 and payment for a university degree was increased from \$500 to \$900. Credits for courses taken at university were raised to \$50 each and maximum supervision allowance was raised to \$1100.

This schedule gives the highest minimum and degree payment in the Pass.

## PRESENTATION MADE TO MR. & MRS. ANDREW WILSON

Members of the Minerva Chapter Eastern Star and Summit Lodge A.F. & A.M. gathered in the Oddfellows hall on Saturday evening, March 15, to honor Mr. and Mrs. Andrew Wilson. About 60 persons were present.

Mr. and Mrs. Wilson were presented with a Ronsan table lighter. Wor. Bro. Harry Gardner made the presentation on behalf of all those present. The gathering enjoyed cards, dancing and lunch. Mrs. Wilson won the prize at bridge.

## H. Boulton Hauled Timber For The First Tipple

Harry Boulton

Harry Boulton needs no introduction to anyone in Coleman or in the Pass. He has been here for more years than most of us care to remember. Harry was a forest ranger for 32 years in this area and although retired from that position for the past five years, he has not given up his activities. Harry is a prominent currier in the Pass as any risk competing against him will testify. To show his interest in community affairs and his willingness to co-operate, Mr. Boulton has prepared this article himself.

I came West on the "harvest excursion" train in 1903. After helping the farmers harvest their grain I came to Coleman and worked at the McLaren sawmill, three miles east of town. This saw mill with its four logging camps was the largest employer in the district. Coleman was just starting to build and most of the lumber was purchased from this mill.

Winter came on Nov. 13 that year and for a time was quite severe, proving quite a hardship to carpenters and other laborers putting up buildings in Coleman. About Dec. 15 a big chinook set in bringing mild, sunny days for about a month.

I was then working for the McLaren logging camp located south of Sentries as most of the logs had been hauled down to the river. I came to Coleman and got a job driving team for a contractor who was putting in the side track for the International Coal Co. While on this job I was sent up on the hill south of town to haul four long timbers. Those timbers were used to build the first tipple used to send coal from this mine. There was a small light track from the mine entry to this tipple and the cars were pulled by horses and the coal dumped into waiting rail-cars. When I look at the massive concrete and steel structure that is the present tipple I think of that old saying, "from the little acorn the mighty oak does grow."

At this time the Coleman Hotel was doing a flourishing business, being well furnished and possessing a fine bar. Many other buildings, both large and small, were now rounding into shape. Although Coleman was small it was a busy place and young men flocked in from all corners of the earth, most of them spoke little or no English.

Frank Graham, sr. was the spark plug of the town and carried a heavy load of the town's

affairs. His wife, "Ma" Graham as we called her, had a heart of gold and was always there with the helping hand and friendly smile.

As I mentioned, Coleman was a young man's town then and very seldom was there seen an elderly man or woman. The only undertaker in this area was located in Coleman and business was so poor that he nearly starved to death. He did get by by doing other small jobs. By 1907 the mine entries were fairly well advanced and more and more miners were employed. Sport activities branched out along many lines. We had a first class hockey team, boxing matches, and horse racing. The track was a straight-way up in the Grafton flat, the sport field was around fifth and sixth street. We also had quite a number of travelling shows. Oh yes, the girls were arriving from bonny Scotland, England and Wales and many other places. The boys from the British Isles were great football players and we had one of the finest squads in Western Canada. Dancing was quite an art in those days and in order for us young ones to have had instructions from a dancing master and his wife for about three months. At the end of that time a big "coming out" party was put on and we were nervous boys and girls, to say the least. The feeling can be appreciated when you realize that we were under close scrutiny of our dancing masters and other old timers. The dances in vogue then were such dances as the waltz, the hesitation waltz, the French minuet the Three Step, the Baltimore two step, the ping-pong two step, the polka, the conlaw, the Spanish waltz, and the shottish. The Annual Grand Ball put on by different societies was beautiful and a non-member was lucky to get a ticket even for three or four dollars per couple. The Masquerade Ball, put on as a benefit for the Miners' Hospital was a grand affair. No one allowed on the floor unless in costume. Most of the costumes were brought in from Calgary and cost anywhere from 5 to 25 dollars. The display of these costumes in the grand march was a sight to see.

All-in-all I think we old-timers had a share of our good times.

## Inquest in Death Of Mrs. M. Aldoff At Medicine Hat

The inquest into the death of Mrs. M. Aldoff was held in Medicine Hat on Saturday, March 7. Accidental death ruling was given. The funeral of Mrs. Aldoff was held in Medicine Hat on Monday, March 10. Mrs. Aldoff was well known in Coleman having lived here for a number of years, moving to the Hat a short time ago. Mrs. Aldoff was killed when struck by a C.P.R. engine near Medicine Hat. Surviving are her husband, Mike, sons George, Reggie, Mike, Dickie; daughters Louise and Ariene, and nine grandchildren.

People shop where they are invited—that's why it pays to advertise.

## Theatre Considering Earlier Starting Time

In accordance with their efforts to satisfy movie-goers, the Roxy management is considering early starting times for shows during weekdays and asks for public opinion.

The present starting times of 7 p.m. and 9 p.m. some feel is too late and consideration is given to move the time ahead to 6:30 and 8:30. It is felt that such a move would result in children attending the first showing and be home at an earlier hour. At the same time, those attending the second show would be out in time to attend other functions if they so cared. No definite action is contemplated at this time and the wishes of the theatre going public is desired in this matter.

Saturday times will remain as they are, should this change be put into effect.

## LACK OF BEES

At least half of last year's estimated 50,000 acres of alfalfa which was grown for seed in the Peace River region was cut for hay or not harvested, due to the lack of seed setting. Lack of wild bees to pollinate the crops was the cause of the poor seed set.

## Variety Show By Couples Club

The Couples Club of St. Paul's United church will stage a variety show and concert on May 9 and 12 in the school auditorium. Mr. J. Allen, Jr. will be master of ceremonies. A humorous play entitled "A Cup of Tea" will be staged. The purpose of this show will be to raise funds to purchase a new organ for the church. Tickets are on sale by the club members.

## Motordrome Being Renovated

Complete renovations are taking place at the Motordrome. According to Jim Wilkie, the front of the building will be taken back a considerable distance thus allowing maximum room for cars entering and leaving. Doors will be added to the east side of the building and these doors will lead to Washing, Lubricating, etc. The inside of the building will also be renewed. Plans are under way for the construction of another garage near the highway which Jim will also operate. The present garage will handle most of the repair work. O. Celi Construction is handling the renovation work at the Motordrome.

Students from grades 7 to 12 assembled in the auditorium on Friday afternoon, March 14, to hear Mr. Donald Norris, government geologist, speak on the geology of this area. Mr. Norris is a graduate of the University of Toronto and is now doing post-graduate work on his doctor's degree in geology from the California Institute of Technology Pasadena, California. He is studying stress relief in the mines in the Pass for the Canadian government.

Geologists, Mr. Norris told the students, attempt to explain the changes that have taken place on the earth and what caused those changes. The evidence given by the rocks of the earth is accumulated and theories are arrived at from studying this evidence. To determine the age of various rocks, fossilized remains of prehistoric animals are studied and recently a more correct method, that of using radioactive substances, has been devised which determines the age of the earth as being about 2 1/2 billion years old. In the study of the Earth's history, four major divisions of time are used. These are the Pre-Cambrian era, 500 million years or more ago, the Paleozoic era, from 300 to 500 million years ago; the Mesozoic era, from 80 to 200 million years ago; and the Cenozoic era, from 60 million years ago to the present. Mr. Norris' talk dealt mainly with the period embracing the Paleozoic and Mesozoic eras. Mr. Norris pointed out to the pupils that geological evolutions deal with millions of years and it is often difficult to think in terms of millions.

He explained the various rocks studied, such as sedimentary, igneous, and metamorphic rock, and what each contributes to geological knowledge. The sedimentary rocks are the rocks which usually contain fossils. Bodies of pre-historic animals were washed down by water and deposited in still pools. As sediment settled over these bodies, the pressure of the sediment and water turned the sediment to rock and fossilized the animal remains. Igneous rock is rock which was spewed from the hot interior of the Earth in the form of lava. Evidence of this is seen in McGilvray mine, Mr. Norris said. Metamorphic rock is rock which has gone through changes and has changed its physical properties. This type of rock destroys all geological records and causes geologists their biggest headaches.

Mr. Norris showed slides taken in the Waterton Park area, Banff, Glacier Nat. Park, and the Pass area. He pointed out how the action of water and ice carved the landscape and how the slow but insistent pressure of the Earth's crust heave out the mountains. Slides showed rock formations in Waterton to be the oldest in the district, being formed more than 500 million years ago. Mr. Norris explained that the red rocks in Red Rock Canyon were due to oxidized iron and that similar rock found in Glacier National Park was formed at the same time. Slides showed lakes called "cirque lakes", gouged out of mountains by the action of glaciers. Mr. Norris showed a picture of familiar Frank slide and told the pupils what he believed caused the slide. Mr. Norris said the formation of the mountain was such that the rock formations were heaved into a vertical position causing an overhang and the action of freezing water in fissures forced the rock strata farther and farther apart. Added to this was the under-cutting of the Crow's Nest River and the mining operations which added their little to weaken the structure.

Mountains similar to Crow's Nest mountain were shown and explained that these mountains were pushed out from the general mountain front. This he called an over-thrust. The rock strata of the Crow's Nest mountain is older than that which makes up its base showing that the Mountain is not on its own base but must have been pushed approximately five miles east of the general mountain front.

The coal formations took place when the area was flat and swampy. Climatic conditions at that time allowed for abundant plant growth. As the plants died and fell they were covered by water thus preventing bacterial action which causes rotting. As layers after layers of these deposits were laid down they were eventually squeezed by tremendous pressures into rock-like coal. Various seams in the Pass can be traced and fitted together such that all mines show the same seams.

Mr. Norris also spoke before the Lions club on Monday night dealing with the same topic. All club members showed keen interest in his address, and after the meeting many members talked with him and had many questions to ask. Mr. Norris will journey to Pasadena for a couple of weeks to report on his research work.

## Rural Electrification

THE USE OF ELECTRIC POWER for lighting and for running machinery is commonplace in these times and it is vital in the operation of homes and industries throughout the country. Because of the large number of consumers in a small area, people in the cities at one time benefited more from the service of electricity than those in the country districts, but rural electrification has spread rapidly in Canada and a large number of farms now have electric power. In 1948 there were 218,205 farms in Canada serviced by electricity, and no doubt this number has increased considerably since that time. The uses of electricity on the average farm are many. It is valuable for lighting, in addition to its uses in operating appliances both in the home and for the operation of the farm.

### Is Used More In The Home

This matter was discussed recently at a meeting of field men of the Veteran's Land Act administration held in Saskatoon. Mr. M. E. Dadds of the Swift Current experimental station, told of a survey which had been made of 87 farms on which electricity was used and he pointed out that in this group, more electrical appliances were being used in the home than for the operation of the farm. These farmers had invested \$65,000 for domestic appliances, and only \$18,500 in productive machinery operated by electricity. Although electricity is of greater use in farm work where there are diversified crops, Mr. Dadds expressed the opinion that many farmers are not making full use of electric power in their farm work. In using electricity for operating separators, food choppers, milking machines and other equipment the farmer could cut out many chores and increase labor return, the agriculturist pointed out.

### Should Pay For Itself

Rural electrification is an important factor in making farm life more attractive and farm work more efficient at a time when rapid industrial expansion in Canada provides many opportunities for those who are disaffected on the land. The use of electricity for running domestic appliances should in no way be discouraged for no one would question its value in increasing the comfort, convenience and efficiency of the farm home. At the same time, its uses for production should not be overlooked. Mr. Dadds pointed out that farm electrification should be made to pay its way, and to do that it must be used for operating farm machinery as well as in the house. Requirements vary in different localities and in different types of farming, but electricity is of value everywhere and full use should be made of its services, whenever that is possible.

### Aged Indian Recalls Riel Rebellion

LEASK, Sask.—Mrs. Suzette Bird, a pipe-smoking Indian woman on the Mistawasis Reserve near here, is reputed to be 106 years old.

Living alone with a granddaughter, growing deaf and speaking very little English, she is one of the last links with Saskatchewan's past. Neighbors say she recalls the Riel Rebellion and other historic incidents. In the summer Mrs. Bird still walks two miles each Sunday to the Presbyterian Mission and back. In winter she rides in the bottom of a horse-drawn sleigh box.

A granddaughter recently verified Mrs. Bird's age by examining records when treaty money was paid last year. It was found then she was 106.

Eorn Suzette Longneck at Saddle Lake, Sask., she later married Peter Muchahoo whose Indian name translated means Bad Owl. Later, her name was modernized to Bird and in recent years she has been called Widow Bird or more often Nucuum, Cree for Grannie.

### Funny and Otherwise

Two crooked boxing managers were discussing a forthcoming fight. "At the end of the second round," said the first, "your man will hit mine and he will go down for the count."

"No, no," expostulated the second. "Not in the second round; in the seventh or eighth. We mustn't cheat the public!"

"My little boy is very polite," said Brown jovially. "Only the other night in the bus he pointed out an empty seat to a dear old lady and raced her for it!"

"Nope," observed the oldest inhabitant, "folks round these parts don't try to labor very much. Matter of fact, I think the laziest man in the state lives right here in this village—name's Will Knott."

"Knott?" the listener repeated.

"Yep," replied the O. I. "He's so lazy he never writes out his name in full—just signs himself 'Won't!'"

At a gathering of bishops a waiter tripped when serving soup, which was spilt all over one of the divines. The victim jumped up, spluttered, went red, and finally blurted out, "Well, someone not in Holy Orders please say something appropriate!"

"Really, Herbert," said Mrs. Newlywed, "I'll put up with your untidiness, I'll tolerate the ash on the carpet, I'll stand for the noise you make in the bathroom, I'll endure your irregular hours—but it's going too far when you try to play my pancakes on the gramophone!"

The sermon went on and on and on. At last the vicar paused and asked, "What more, my friends, can I say?"

From the back of the church came a voice: "Amen."

Two men in a lighthouse saw a small boat being rowed towards it. When it was about half a mile away it began to sink, so one of the men went out to the rescue.

When the rescued man was in the lighthouse he told the men it was a good job they had saved him because he had come to see them about their income tax.

"You seem to think I'm nothing but a miserable idiot," shouted the enraged husband.

"Oh, no, dear," soothed his wife, "you're cheerful enough."

"Miracles," was the day school subject, the teacher, a homely spinster, explained them to the best of her ability. Then asked: "Now, can any of you tell me what is a miracle?"

One little boy answered promptly. "Please, miss, my mother says if you don't marry the new minister inside three months, I'll be a miracle."

Latest story about Britain's shortages concerns a hostess, pouring tea, who said: "One lump or two?"

Confused Guest: "Forgive me. I had quite a shock. For a moment I thought you were the coalman."

—Central Press Canadian.  
**HAD A NICE TRIP**—Sheila Richards, 12, has a new western outfit to wear at home in Clarendon, Alta., after a trip to the Khwasis Music festival in Toronto. En route to the festival, she lost her luggage, but Easterners came to the rescue and provided her with a new outfit. She captured a second place among trumpeters in the festival in addition to the clothes.

### Cars Crossing Alberta-B.C. Border Being Stopped

CROWS NEST, B.C.—Cars crossing the Alberta-British Columbia border are being stopped by a three-man British Columbia patrol at the Corbin road cutoff, six miles east of Michel, B.C. The patrol is maintained around the clock.

It was set up as a result of the interprovincial ban on shipments of livestock and fresh meat following the Regina outbreak of foot-and-mouth disease.

Cars bound for B.C. are examined for meat. Whenever it is found they are ordered to return to Alberta. Cooked or canned meats may be taken in, but not hams or bacon.

### TOURISTS IN 1951 SPENT \$271,000,000 IN CANADA

More tourists came to Canada in 1951 than in any year except 1948, the resources department announced in Ottawa. In a review of the year's tourist activities, the department said visitors from other countries spent a total of \$271,000,000 in Canada, of this, United States visitors spent \$255,000,000.

## Brangus Cattle Are Doing Well On Alberta Farm

Blend of Brahman and Angus Are 300 Pounds Heavier at Maturity

ATLEE, Alta. — Brangus cattle are grazing on the Alberta range near here on the Red Deer river some 60 miles north of Medicine Hat. To young Bruce Dawson and his neighbors it is an interesting experiment and one of three in Canada.

Brangus are a blend of purebred Brahman and purebred Aberdeen-Angus and the aim is to produce an animal with ability to turn sparsely vegetated pasture into more pounds of beef than other breeds.

Three men in Canada are engaged in this cross-breeding — it is being

done on a much wider scale in the United States. They are Dawson, James Mitchell of Maple Creek, Sask., who keeps his cattle at Manbyberies in the Medicine Hat area, and a breeder in Ontario.

The true Brangus carries three-eighths Brahman blood and five-eighths Aberdeen-Angus blood. They are black in color and hornless.

Compared with other average breeds, the Brangus weighs 50 to 75 pounds more at weaning time, 150 pounds more at two years and up to 300 pounds more at maturity.

Besides having more poundage to improve the pocket book, the Brangus is immune to pink eye and cancer eye. It has sweat glands. It also has a muscular membrane between the hide and flesh that enables it to dislodge insects and hence is less bothered by flies and mosquitoes.

Dawson obtained his first bulls in 1949 from Clear Creek ranch, Welch, Okla. He started with half bloods and now has 30 quarter-bred heifers. He now is working on the three-eighths. So far, he says, he has put 100 extra pounds on calves.

Dawson says his animals have wintered well, all outside. As they progress in breeding they change appearance to some extent.

There is a small hump on the shoulder of the Brahman, he said, but on the half-blood it is half-way between the crest and the shoulder. On the quarter-blood it is farther to the front and on the three-eighths it moves back.

### HIGH ENERGY TONIC helps

## RELIEVE RUN-DOWN CONDITIONS

Highly recommended by users

Catch colds easily? Get caught due to lack of energy? This may be due to a run-down condition. Start taking high energy Scott's Emulsion today.

Contains natural A & D vitamins in natural oil—plus added minerals! Helps maintain resistance and stamina! Your favourite score bait.

Conducted by Lloyd "Ace" Percival

## How To Prepare For The Play-Offs

Probably the greatest enemy of athletic efficiency during the hockey play-offs is upper body tension, i.e. the tension that is brought on by the athlete who tenses his upper body while participating in an activity in which his legs are supposed to do the most work, and thus tires himself unnecessarily.

A very good example of an athlete who suffers from upper body tension is Tedder Kennedy, who is noted for his great determination and sense of responsibility. Although he certainly does a wonderful job he would undoubtedly improve his effectiveness a lot more if he followed through his determination with more looseness and relaxation of his muscles.

The first thing to do is to go through certain drills which will teach your muscles the difference between relaxation and tension.

You should, as often as you can, practice lightning your hands, jaw,

neck and shoulders. Hold them this way for a few seconds and then let them relax and go as limp as possible. Experiment with each one separately. After a few days when you can feel the difference between tension and relaxation you should apply the same principles to your skating. For example, practice skating hard with all your upper body muscles tight. Then do the same thing right afterwards with all your upper body muscles loose. Do this for five or ten minutes every time you get on the ice and you will gradually teach your muscles the difference between tension and relaxation and thus develop the habit of keeping your upper body loose when you are trying to drive hard with your legs.

The same sort of drill can be done by any athlete no matter in what sport he is interested. Probably the key to the whole problem is found in the old saying that an athlete must be steel inside but loose and easy outside.

To get that extra jump on your opponents, take a tip and really go to work today to prepare yourself for those play-offs which is hockey at its toughest.

### Another Play-Off Hint

Here's a tip which may well help you score that all-important, championship-winning goal: the ideal area from which you should try to score is in front of the net from ten to twenty-five feet out. Remember, a goalkeeper's weakest side is the side on which he holds his stick. Another important point is that most goals are scored when the puck is shot below the goalkeeper's knees.

### Feeling Lousy Before A Game? Try This

Before you leave home for the game, have a cold bath, with the water between sixty and sixty-five degrees. A rub down with a towel soaked in cold water is second best, and a cold shower should be your third choice. The bath, rub down or shower should last between ten and fifteen minutes.

Sports College has material available covering all fields of health, physical fitness and sports efficiency. To become eligible for this material simply become a member. To join all you have to do is send a note saying you would like to enroll to: Sports College, Box 99, Toronto 4, Ontario.

### PLAYING BAGPIPES STUDENT'S FORTS

MONTREAL.—Hoot, mon! A McGill student, seeking part-time work, was asked what special skill he had.

"I play the bagpipes," he said, adding "I also have kilt."

And now the McGill Placement Service officials must rustle around seeking engagements for a student bagpipe player.

## On The Side : E. V. Durling

Why is it most shop window-dressers are men? Are women lacking in the artistic ability to master this trade profession? It would seem that in the case of window displays featuring feminine attire the job should be handled most efficiently by a woman. However, if you stroll through the shopping centre late at night you will see in many shop windows men engaged in dressing female figures. It seems strange to see a husky six-foot male busily at work adjusting intimate attire on a shapely feminine dummy figure in a shop window.

### Let's Try It

Elsie de Wolf (Lady Mend) is one of those who believed in the benefits of standing on the head periodically. Elsie stood on her head for short time every day. Said it kept her mind active and enabled her to maintain a young looking appearance until she was in her seventies. Sam Wood, a film director, when stuck for an idea always retired to a corner and stood on his head for a few minutes. Claimed this stimulated the brain.

### Reward for Diligence

In the yesteryear youngsters who did some shopping for their mothers greatly benefited by it. At the bakery the kid would be given a cake. At the delicatessen store he would get a piece of bologna or some other tidbit. The Chinese laundryman handed out some special Chinese nuts. And so on. Was interested in noting this old custom is being revived in some sections. Bakers and grocers are reported bestowing little gifts on young shoppers. It is said the practice is helping increase business.

### Cooking Diploma for Marriage

In Switzerland no license to marry is issued unless the prospective bride has a diploma from a cooking school. That's a very good idea. A wife who does not know how to cook is a menace to matrimony. One skilled in the culinary art can do much to make a marriage a success. However, I do not agree with the claim that the way to a man's heart is through his stomach. That is only one way. About fourth in importance, I would say.

### An Ideal Honeymoon

According to the original idea, a honeymoon should last 30 days. The period all to be spent in gaiety away from home. What is the best place to spend a honeymoon? That depends on the size of the bridegroom's bankroll. I would say the best place in the world for honeymooners is Paris. After that, New York City. Honeymoons should be spent where there is plenty of activity. This gives the couple a better chance to get used to each other. It is said only 30 per cent. of wives have really enjoyed their honeymoon. The other 70 per cent. were disappointed. It didn't live up to the build-up they had given it in their dreams. Not romantic enough. How about your wife, sir? Did she enjoy her honeymoon? Are you sure? Better not bring up the subject. Let well enough alone.

### Distant In-Laws Are Best

Sons-in-law usually get along nicely with their mothers-in-law. It is daughters-in-law who have the most mother-in-law trouble. However, according to those who have made a study of the situation, it is usually the mother-in-law who causes the dissension. Many mothers are most possessive as regards their male offspring. They are often inclined to think him a little more wonderful than he really is. So they are likely to be critical as to the way his wife treats him. Also mothers-in-law often lack tolerance as to a daughter-in-law's housekeeping, rearing the children, handling the family budget, etc. Life is usually happiest for the woman whose mother-in-law lives in another city.

ELMER LACH, the Montreal Canadiens' ageless centre, was recently feted by his fans in the Montreal Forum. He received numerous gifts, including a 1952 Oldsmobile, with a cash total of close to \$11,000. In the photo above pretty Kaye Lach buses her gift bringing husband in enthusiastic fashion after the presentation ceremonies. This little episode was one of the rink rocking incidents in connection with the memorable evening.

## Painting On Cement Is Relatively Simple

Success of painting cement, whether basement walls or the floor of your basement recreation room, or your garden steps or terrace, is like all good painting — dependent upon the preparations you make. Good paints are made for the purpose and will give satisfaction if properly used and the concrete properly prepared.

Cleaning is the first operation of any good paint job. If the cement floor has not been painted, the job is relatively simple. Begin by scraping all oil and grease spots, then cover them with a layer of sawdust. Soak the sawdust with a solution of one pound of lye to a gallon of

water. Leave the soaked sawdust overnight, then scrape it off. If necessary, repeat until oil or grease is gone. If the floor had been previously painted, its condition will decide whether or not the paint has to be removed. If it is in bad condition, it is best to remove it.

To remove paint, use a stiff fibre brush to apply the lye solution described above. Wear old clothes, protect your hands with rubber gloves and your shoes with old rubbers, and be careful about splashing the lye solution.

When the paint has been removed, wash the surface with clean water. It is important that every trace of the lye be washed away. The floor must then be allowed to dry thoroughly.

The floor paint should be applied according to the directions on the can. These may vary slightly according to the product.

## GARDEN NOTES

Requirements for Small  
Garden: Spade, Rake,  
Cultivating Tool

### Better Dig It

For the average gardener, the simplest way of preparing the soil is to plow or spade. That can be done first thing in the spring or in late fall. This buries grass, sod, weeds and fresh manure, all of which will break down into humus and other plant food. It will also kill a good many weed seeds and wintering insects and disease germs.

After this only light cultivation will be required. Most gardeners try to get over all flower gardens and vegetable gardens once a week during the early part of the season, that is up to about mid-July. In addition to killing weeds, this lets in air, prevents baking and conserves moisture.

### At Small Cost

In comparison with most other recreations, equipment for gardening does not present much of a problem. Minimum requirements will be a rake, a spade, some sort of tool for cultivating, and possibly a cheap duster or sprayer. For the lawn, of course, a mower of some kind will be necessary.

From these minimum requirements one can go as far as purse and inclination will dictate. Much will de-

pend upon the size of the lot. For the average urban layout not a great deal more will be necessary than the minimum mentioned. Where there is a big garden money will be spent on additional specialized equipment, such as power lawn-mowers, possibly a garden tractor, two or three cultivators of different sizes, a wheel barrow, etc. These tools or machines will take a good deal of drudgery out of the business and permit one man to look after a considerable area in his spare time. With a small tractor, for instance, one can cultivate a half acre vegetable plot in an hour or so, though of course there will be some close or hand work left. And there are other jobs that these machines will handle with some of the various attachments available. They will drive the regular lawn-mowers and with a special moving bar will cut big weeds or long grass, and they can be rigged up to light carts.

### Not a Joke Now

Everyone knows the story about the city man who figured what it actually cost to grow vegetables in his backyard. There were a lot of laughs once when vegetables were cheap. They don't laugh now — and the man or woman who really knew freshness never laughed anyway. Money just can't buy vegetables that will compare in favour with those grown right at the door and prepared while the dew is still on them. Particularly in this true of such things as corn, peas, baby carrots, leaf lettuce and similar delicacies. Grown quickly on good soil there is as much difference between these and the bought kind as there is between black and white.

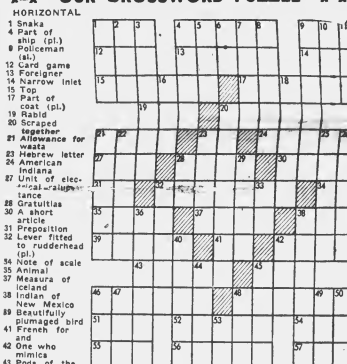

## Canada's Prospects Called "Unlimited"

TORONTO.—Gen. Robert E. Wood, chairman of Sears Roebuck, said that from a material viewpoint "your prospects in Canada are unlimited." Addressing the Empire Club, the United States department store executive said that with modern science, modern technology and immense resources, "the standard of living of every class of the Canadian population should rise continuously for the next 20 years."

A Canadian manufacturing, now largely concentrated in Ontario and Quebec, will gradually expand into the prairie provinces and British Columbia, he said.

## NOTES AND COMMENTS

### A Job Well Done

The hockey season in Coleman is at a close. We can now look back on a very successful season with pride as we await the coming baseball season. Although the squads have not brought back any hockey crowns they did bring a few honors to the town.

All three clubs were able to enter provincial play-offs, and although they captured no championships they came very close. For a town this size producing three teams that have entered in provincial competition shows that we do not have mediocre hockey ability. It shows that we are producing athletes whose abilities rate second to none.

A great deal of the credit must be given to the persons in the community who have given their time, without thought of reward, to the coaching and managing of the teams. They are the moulders and strategists of the game. Without their success as we have achieved this winter would be impossible. Because words alone cannot be found to express the appreciation due them, we can only say, "Thank you for a wonderful hockey season."

To the boys who played the game, your reward is the game itself and the cheers of the people who are your fans. It is hoped that the next season will be as successful if not more so and that your standard of hockey and fair play remain at the present high.

### April Campaigns

The people of Coleman have two very important obligations to meet this coming month. April will see the Cancer and Red Cross campaigns in full swing and it is hoped that a worthwhile response will be given.

The cancer campaign has always met with success in Coleman. No one can deny the importance of this campaign. Possibly the most dreaded of today's diseases, cancer must be fought with all available resources without limitations. This constant fight costs money. Eventually as knowledge of this disease's weakness is gained and science learns to take full advantage of it, we will conquer cancer. Meanwhile the fight continues and costs mount. Laboratories must be supported; personnel must be paid; those already afflicted with this disease must be helped, and suffering relieved. Propaganda which is so important in keeping us on guard against this killer must be paid for. We are asked to give a few dollars. The more we give, the sooner we will see the day when cancer will strike terror to the heart of its visitors no longer.

Equally important is the Red Cross campaign. The Red Cross relieves the suffering of millions of people every year and gives them the will to continue living when death seems welcomed. First on hand in emergencies, the Red Cross asks our financial help. We have proved disappointing in the last few years; let us not continue to do so.

When the canvassers come to your house give them something. Anything will help. You may be helping yourself.

### Letters to the Editor

Route 4, Box 339,  
Bothell, Wash.

Hello Tom,  
Congratulations and the best of luck in your new enterprise. It sure was a pleasant surprise to receive the Coleman Journal.

It seems that no matter where one has settled or how well one is content in their new home there is always a soft spot for the old home town, and going through the pages of your journal brought back many pleasant memories of Coleman.

I am enclosing a postal note for the sum of two dollars for a years pleasant reading.

My family joins me in wishing you and the town of Coleman the best of luck in the future.

Nick Nicholas

Creston B. C.  
Box 191

Mr. T. Holstead,  
Coleman Journal,  
Coleman Alta.

Dear Mr. Holstead,

I am enclosing a postal note for \$2.50 for which I would like a subscription to the Coleman Journal sent to my father, Mr. G. Odell, at the above address. He is living here permanently now, and would like to keep in touch with the doings in the old home town.

We are very glad to see the Journal published again.

Yours truly,  
Agnis White.

South Slovan B. C.

Coleman Journal,

Dear Sir,

Please renew the journal for me. Enclosed find \$1.50 for one year.

Yours truly,  
H. Sherratt

### Committees Set Up In Town Council

The Coleman town council held its regular meeting on Tuesday, March 18. Present were mayor N. E. Aboussay, councillors Toppano, Ramsay, Jenkins, Woods and Wavrean. Bills were turned over to the various committees for approval.

A letter was read from Edmonton advising that a course in plumbing inspection was offered and that any municipality with over two thousand population or having a water and/or sewage system must appoint a plumbing inspector. The appointment was left in the hands of the light and water committee. Another letter informing the council that courses were offered at various Alberta points for the instruction of fire department heads in conjunction with the Civil Defence organization. The courses were offered from April 28 to May 3. This will be looked into next meeting. The by-law under the Civil Defence Act was read empowering the council to use money for Civil Defence purposes without bringing it up before the ratepayers. As the 1952 budget already allows for Civil Defence expenditures, the by-law was not needed in Coleman.

Len Smith, operator of Len's White Rose service station, requested permission from the council to set up a sporting goods shop in conjunction with his garage. Council will advise Mr. Smith that in order to operate such a shop he must conform with town by-laws regarding the sale of goods after hours, Sundays, and other town holidays.

It was reported at the meeting that moneys charged for the collection of ashes were inadequate to keep the department self-supporting, and that the present 50¢ per month rate would have to be increased. This was also left until next meeting.

The council committees were set up for the fiscal year '52-'53 and show the following members on the various committees:

Finance: Jenkins, Dibbee, and Toppano; Relief and Health: Wavrean, Ramsay and Jenkins; Building: Dibbee, Woods and Ramsay; Works and Property: Ramsay, Woods and Dibbee; Fire: Woods, Toppano and Jenkins; Rinks and Parks: Toppano, Jenkins and Wavrean; Police: the whole council with Woods as chairman, Deputy Mayors: Woods, Dibbee, Toppano, and Ramsay for a period of three months each.

Requisitions from the school board and from the municipal hospital were looked into. The council felt that more information will be required before such requisitions are met.

As applications for restaurants must be signed by a medical health officer, Councillor Toppano was asked to ask Dr. Leisner to check the restaurants twice yearly.

Business license moneys will be collected from those businesses which fall under the license by-law. This money will be deducted from the business tax.

### Gov.-Gen. Urges Support Of Cancer Crusade

Proclaiming April as "Cancer Month" across the country—the Governor General, His Excellency the Honourable Vincent Massey, has called for the support of all Canadian citizens in the Canadian Cancer Society's Cancer Crusade.

The message, issued from Government House this week, read as follows:

"This is the time of year when the great body of Canadian men and women engaged in the fight against cancer review and renew their efforts—April is Cancer Month in Canada.

The public will learn a great deal during the next thirty days of what is planned, in the field of cancer. But the effort itself knows no season.

At this moment several hundred Canadian scientists, with the assistance of the Canadian Cancer Society, are working tirelessly in universities and hospitals across Canada in their search for the cause and cure of cancer.

These able workers have already contributed to advances in the treatment of the disease. However, if we are to make the most of these advances, it is important that diagnosis be made and treatment given at an early stage of the disease. To this end, the Canadian Cancer Society conducts an ever-expanding educational program to bring the facts about cancer to the public.

In cancer, as in all chronic diseases, patients and their dependents may face problems which can be solved by a helping hand which provides sick room supplies, family care, or transportation to and from clinics. These and other services are tangible contributions being made by the many voluntary workers who devote their time and effort to the welfare work of the Society in hundreds of Canadian communities.

The Canadian Cancer Society's noble work of assisting medical research, informing the public and helping the sick, is worthy of the support of us all."

WEDDING CAKE boxes can be secured at The Journal Office.

### Theatre Notes

The Roxy Theatre, Coleman, lists some of Hollywood's better pictures for movie-goers during the next two weeks.

March 29 and 30 brings the billing drama "Stranger on a Train" wherein a young man on a train, confronted with a romantic problem is approached by a stranger, with an unusual offer that almost costs him his life.

Another "Best Seller" is featured on the screen April 1 and 2, when the Roxy presents "The Black Rose." This picture tells the story of two young Englishmen when they cover half the globe in search of the unknown wonders of the world.

For the musical minded fan, April 3 and 4's "West Point Story" brings Warner Bros. song spangled salute to the American Army Cadets. Rave notices class it as Cagney's best since "Yankee Doodle Dandy."

A spectacular epic of Island beauty in beach color is shown in "Bird of Paradise" April 5 and 7. It tells of a romance between a white man and a beautiful maiden, and the struggle between old ritual and new enlightenment.

"Passage West" rounds out the versatile programming to please the action fan. Coming April 8 and 9, it displays a fighting parson who proved his faith could stop a bullet. A saga of the men and women who blazed America's paths.

### WEDDING

#### NOTON—SAILOR

A wedding of interest to Coleman people took place on February 1 at Shaughnessy Military hospital, Vancouver, B.C. when Mr. William Noton and Miss Alys Saylor were united in marriage. Miss Saylor was formerly of Medicine Hat and Mr. Noton was employed on the Noton staff for a number of years. Mr. and Mrs. Noton spent their honeymoon in Seattle, Wash. On their return they will reside in Vancouver where they have purchased a home. Mr. Noton is employed as a radio technician.

CIVIL DEFENCE BADGE  
Shown above is the new Civil Defence Badge which will be issued shortly to all certified members of Alberta civil defence groups. The badge is of gilt with the initials C.D. for civil defence, set on either side of the official crest of Alberta.

### RED CROSS CAMPAIGN WILL OPEN IN MARCH

In March, the annual campaign to raise the very necessary funds to carry on work of the Red Cross will be underway.

The Alberta Division, in addition to local requirements and our contribution to national headquarters, must raise its full quota of \$400,000 to support the outstanding progress of the Crippled Children's hospital, in Calgary.

Only by maintaining adequate funds for equipment, personnel and assistance to those in need, can we promote the growth and prestige of this organization.

Every one has a duty in the 1952 campaign . . . to educate more and more citizens in the tremendous, relief responsibilities which are borne daily by the Red Cross.

Make certain every citizen knows of the Red Cross' year-round efforts and has an opportunity to contribute.

#### LETTER WRITING CAN BE MADE A PLEASURE

Writing letters, personal or business can be made a pleasure by using a Remington Rand portable typewriter. Typewritten letters are so easy to read, particularly when compared with most handwriting. In a neat carrying case, which can also be used for an overnight case, these new models are of splendid appearance and long lasting. They can be purchased on terms of one third cash and balance in six monthly payments. Prices \$84.75 and \$99.75.

The tip of a fine gold pen-point actually is covered with osmium-iridium, a precious metal of the platinum family, because gold is too soft to hold its shape under constant writing pressure.

## GOVERNMENT Encroachments

(The High River Times)

So insidious and quiet has been the encroachment of government on the ordinary affairs of life that people are scarcely aware of how they are becoming vassals to authority. People either in the farm or business world may see themselves individually as slaves of regulations, but they do not see the working on all embracing scale. Perhaps if they did, they might consider how crippling the trend is growing. Perhaps it does not seem like thinking about, unless thought can be translated into action. Certainly these scores of regulations which creep into departments of government, both federal and provincial, are never brought up in any pre-election campaign. They are not the outcome of public demand, and they do serve to burden and complicate the life of the ordinary man, often quite unjustifiably.

If a man who opened his own little business forty or fifty years ago were suddenly transplanted without conditioning into the business world of today he would go berserk. He would find himself imposed upon by governments to serve as a collecting agency at his own expense for the benefit of government. He would find his bookkeeping problems multiplied. Every detail of his business would be under the awful eye of government, and he would be hounded by inspectors whose watchword seems to be suspicion. He would find his freedom of action hampered and his unpaid service on behalf of government burdensome beyond belief. But the man who has continued in business has been led step by step along the path, not realizing how far from any real freedom he has travelled.

One of the headaches of the printing business, for example, is sales tax. The local office is obliged to collect this tax from the customer, and too often has not the time to show in the bill that the cost of the job is increased 10% by the government sales tax, not profit coming to the office. The printing office must pay that tax whether the bill is paid or not, and inspectors are round with their all-seeing eye to ensure that nothing is overlooked. There was time when authority demanded certified cheques in payment of this sales tax, and pronto.

A general headache is collection of income tax which means more complicated forms. The burden of returns is thrown on the individual employer, and to him goes the task of interpreting all myriad new regulations, with more inspectors to see he is doing his unpaid job to government satisfaction. Responsibility is piled high, despite all protests, continually adding to burden of book work.

The question is to what lengths governments can go in creating their range of inspections, and imposing upon harassed business without rousing a most unwelcome revolt. And if there is no revolt, what is the outlook fifty years from now? A complete dictatorship and subservience to government.

—V—

JIMMIE SHIELDS

Here's Toronto radio tenor Jimmie Shields all togged up for the wearin' o' the green on March 17. There'll be a touch of the shamrock in his songs on Sunday night, March 16, when he turns up on his regular page in "Bod's Scrapbook," heard at

9:00 p.m. CST, 8:00 p.m. MST, on the CBC Dominion network. Besides his job with Bod he has two other weekly programs. He's one of the stars of "Musical Comedy Time," a new Sunday-night show on CBW at 7:00 p.m. CST, CBK-CBX at 9:00 p.m. MST, and on Wednesday evenings he has his own show at 6:00 p.m. CST on CBW, 5:00 p.m. MST on CBX. He is a frequent guest on other programs, too. Irish ballads and modern love songs are only part of his repertoire—he rounds it out with arias and classics.

### BLOOD TRANSFUSIONS RED CROSS' LARGEST SINGLE OPERATIONAL BUDGET ITEM

Provision of free blood transfusions for the majority of Canadians is the largest single item in the operational budget of the Canadian Red Cross Society.

For the first time in several years, Red Cross has been obliged to enlarge its objective from \$5,000,000 to \$5,222,000, an increase of 4% per cent. But in the light of ever-advancing costs, added commitments to the arm-

ed forces and the steady expansion of the free national Blood Transfusion Service, it was felt to be a reasonable requirement.

More than a third of the budget will go to the Blood Service, which last year provided free transfusions for 110,000 patients and 6,000 bottles of plasma for the armed forces. Next largest requirement is \$666,088 for hospital, medical, nursing and health services, including operation of 75 Outpost hospitals and Nursing stations. Third largest item is \$429,795 for service to war veterans.

Balance of budget will be used for instructional and welfare services, international and women's work, Junior Red Cross, administration and others.

To safeguard the public interest, Red Cross has in force a most exacting system of budgetary control, from the smallest branch to the final audit by the Department of National Defence, which final provision is called for by the Red Cross charter.

### QUICK CANADIAN QUIZ

1. What are, and where would you find, ptarmigan?
  2. Canada's first postage stamps were issued in what year?
  3. The U.S.S.R. has one doctor to every 10,000 of population. What is Canada's rate?
  4. Last year the total of all taxes paid by Canadians increased by how much over 1950?
  5. Name Canada's first Governor-General.
- Answers: 5. Viscount Monck. 3. One doctor to each 977 people. 1. A species of grouse native to Canada's Arctic. 4. Taxes increased by 20%. 2. In 1851.

### BADLY NEEDED

At last there is some hope of taming those blinding lights on the other fellow's car. A new device is reported. You wear them like eye glasses to effectively cut down night driving glare, say the makers. They have sliding opaque shields placed at a height sufficient for the driver to see underneath — when headlights approach he lowers his head to cut out the glare, without affecting his view of the road ahead.

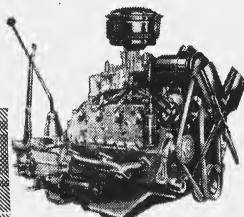

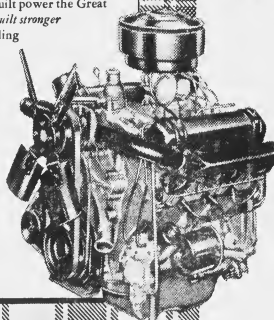

# FORD TRUCKS

**MORE Power! MORE Torque!**

Year after year, Ford truck-engineers new advancements, new benefits, new savings for truck buyers. And now for '52, Ford Trucks set new standards of performance for the entire field. Now, the newest, most powerful, smoothest and thriftiest Ford V-8 Truck Engines ever built power the Great Canadian Truck Line... the line that's built stronger to last longer... and cover ALL hauling requirements from 1/2-ton Pickup through Extra-Heavy-Duty 5-ton "Big Jobs" with G.C.W. of 41,000 lbs.

With 3 new higher-power, higher-torque V-8 Truck Engines... with 7 series ratings—12 wheelbases—2 all-steel, all-welded cabs... with improved Power Pilot Economy in every model... this new 1952 line brings you a Ford Truck that's better than ever for your hauling job—because it's built to brand-new standards of OUTSTANDING PERFORMANCE and ECONOMY!

**Now, Bigger!**  
**106-HP. V-8**  
194 FT. LBS. TORQUE  
(Series F-1 through F-6)

Now for '52! the world-famous Ford V-8 Truck Engine—with more power—increased torque—proved reliability. Packed with truck-engineered advancements, this smooth 8-cylinder power plant is "stepped-up" to 106 horsepower with higher torque output... plus tremendous performance improvements to handle light and heavy-duty hauling jobs more easily and economically than ever before.

**Entirely NEW!**  
**145-HP. V-8**  
**"Cargo-King"**  
244 FT. LBS. TORQUE  
(Series F-7)

The revolutionary new 145-HP. V-8 Cargo King for Series F-7—with new High-Compression, LOW-FRICTION overhead valve "short stroke" design that cuts piston travel 20%... SAVES ONE GALLON OF GAS IN SEVEN. New 5-bearing crankshaft... new Full-Flow oil filter reduces ring wear up to 35%.

**Entirely NEW! 155-HP. V-8 "Cargo-King"**  
284 FT. LBS. TORQUE (Series F-8)

The most powerful Ford Truck Engine ever built for Series F-8 Big Jobs! The new 155-HP. V-8 King. Featuring High-Compression, LOW-FRICTION "short stroke" design, the new 7 to 1 compression ratio gives high compression performance that means faster acceleration, more pulling ability to move heavier loads faster at lower cost.

### SEE...COMPARE...CHECK THESE FEATURES

- REVOLUTIONARY HIGH COMPRESSION, LOW-FRICTION V-8 Engines for F-7 and F-8 "Big Jobs"
- 7 SERIES RATINGS 1/2 to 5 TONS.

## Canmore Takes Title In Hard Fought Game

Playing at an exhausting pace, and often short handed, Coleman Grands extended Canmore Legionnaires before bowing out 5-4 in the second and final game for the Southern Alberta Intermediate title.

Unimpressed by Canmore's invincibility in the Big Six League, and their impressive lineup of high scorers, the Grands hit the ice at a fast pace from the opening whistle and never gave up. Until the final play, victory could have been theirs.

Constantly hampered by being penalized, the Grands played like men fighting for their lives. Persistent backchecking and tight defense broke up countless strong power plays as the visitors tried to get in on the youthful Coleman net minder. The only faults that could be marked up against the locals were their over anxiety and the resultant missed passes, or their knack of drawing the attention of the officials justly or unjustly.

From the opening play, the officials allowed the game to take on the mantle of a mockery and drew ire of fans. However, members of both teams exemplified the fact that they were of championship calibre by not permitting this farce to interfere with a hard fought and interesting brand of hockey.

R. Collins - playmaker

Opportunist Art Krowchuk found his skating in the clear paid off for 2 Canmore markers, singletons going to Bannon, Chakowski, and Stasiuk. Goal getters for Coleman were Allen, Vejprava, Ulrich, and Collins.

As in the case of many games, the heroes of contest were not necessarily those registering goals. Coleman fans saw shades of old time hockey when Allen and Collins, on separate occasions, killed off penalties with deft manipulation of stick and puck at centre ice. Self showed superiority in the nets, blocking many hard shots from Canmore's first line marksmen. With two years of juvenile hockey still remaining for this boy, he is deserving of more applause.

Grands proved capable of wearing the Coleman colors in their achievements this season. Seldom, if ever, does a team go as far along the playoff trail under similar circumstances. Not belonging to any league, and without a regular schedule to create an interest, the Grands played teams from other centres as available. They played and practiced for the love of the game, and have carried Coleman's name to the fore to a greater extent than have teams from other centres utilizing a definite and large cash expenditure and active playing schedule.

Friday night's game saw Canmore getting organized faster and starting their plays with split second timing, a fact that won the series. Legionnaires opened the scoring at 1:40 of the first, Bannon on an assist from Chakowski. Coleman pressed to even the contest but were forced at an early stage to assume defensive position when simultaneous penalties were given Ford and Zowinski. Despite this manpower shortage, Grands featured in spectacular rushes. Allen capitalizing on his efforts to tie the game at 8:40 with a high drop shot. Biegun and Zowinski drew assists on the play. Antoanko threatened to put the Grands in the lead during the dying minutes but was prevented from getting a clear shot when Kalleta sacrificed two minutes to make the trip and save.

Second period action centered

between the two blue lines for the better part of five minutes then Krowchuk standing in the clear took a pattern pass from Krizan to score at 6:30. Stasiuk sank the third Canmore marker at 8:20 from Hruska while at a man advantage, and Krowchuk converted another Krizan pass for the fourth at 9:30 while Coleman had two men serving time.

Vejprava put Coleman back in the game at 13:20 when he took a flat pass from Wakuluk and drilled in from a near impossible angle. Ulrich made it 4-3 on a solo effort at 19:15.

Penalties in this period were to the Grands. Biegun and Collins 2 minutes each and Zowinski, 2 minutes and misconduct.

Canmore opened fast again in the third scoring what proved to be the winning goal at the 40 second mark. Chakowski from Bannon, Collins and Zowinski teamed on Coleman's next goal at 9:25 and sparked their team to play a determined brand of hockey till the final bell. From this point Coleman drove the visitors back to their own end and peppered Lancaster with shots. A cohesive Canmore defence forced many Coleman

shots to start from far out and gave the goal tender plenty of chance on the saves. This style of play proved effective and kept Coleman from tying it up.

Penalties were even in the third, Antoanko and Brazzoni for Coleman and Bannon and Stasiuk for Canmore. Brazzoni and Bannon drew misconducts.

Officials: Tony Vejprava and Aubrey White.

Coleman: Seloff, Antoanko, Besetti, Biegun, Ford, Wakuluk, Hudz, Allen, Soroff, Ulrich, Zowinski, Vejprava, Collins, Brazzoni.

Canmore: Lancaster, Kaleta, Krizan, Stasiuk, Cherek, Krowchuk, Ketchonowski, Chakowski, Bannon, Hruska, Whitehead, Cherek—G.J.Y.

## Juveniles Win C.N.P. Trophy

The season has ended and all players have hung up their blades for another year. Following is a brief summary on the last games of the season.

The Midgets, defeated by Gle-

chen in their provincial try dropped a 5-3 decision to Bellevue to finish third in the C.N.P. championship. Bellevue ended on top and Pincher finished in second place.

The Coleman Juveniles remained undefeated all season and took the Legion Memorial Cup, the C.N.P. trophy for that division. The cup was presented to team captain Joe Kryczka by Mr. R. Morrison of Blairmore. The Juveniles were knocked out of the provincial playoffs by Drumheller in the two-game total goal series which they lost 3-2 and 2-0.

In the Pee-Wees, Sonny Truch won the most valuable player award for his outstanding work in front of the goal mouth.

Banquets for these three clubs are slated for the near future.

### BY A NOSE

Johnny had seen his mother measure a yard by holding one end to her nose and the other at arm's length. One day he came running in with a piece of rope.

"Here, mother," he said, "Smell this and see how long it is." —Wheat Pool Budget.

"PASS" HEADQUARTERS FOR FORD AND MONARCH CARS

COLEMAN, ALBERTA

## LOCAL NEWS

Rebekah Assembly recently held in the city of Calgary was attended by several members throughout the Pass. Mrs. M. E. Cornett was a delegate for Coleman. Mrs. J. Jackson also attended, she is a member of the

Rebekah Assembly and has not missed an Assembly for 30 years. Mrs. M. Ford also attended, she brought back a gift of a white zippered Bible and presented it to Victoria Lodge No. 7.

Mrs. K. May, friend of Mr. and Mrs. E. Gushal, passed away at

Red Deer hospital on March 18. Mrs. Gushal attended the funeral which was held at Rocky Mountain House on March 20. Mrs. May was well known by many Coleman residents.

Mrs. W. Roughhead has as her guest her cousin Mr. James Macquire from Cochrane. This was their first meeting in over 30 years.

Coleman patients in the C.N.P. hospital are Mrs. Lagasse, Mrs. P. Failor, Mr. W. Cousins, Mr. P. Lant, Pete Nietlich and Miss Jean Bagley.

Mrs. D. Sudworth received word of the passing of her brother George Makin of Boston, Mass. A few days prior to his death Mrs. Sudworth had received a Valentine card in which he stated that he had planned a visit to Coleman this summer.

Mrs. J. Owen was a Calgary visitor last week where her daughter Laura is attending business college. A gala arranged birthday party was held at the home of Mrs. Mary Fraser in honor of Laura's 19th anniversary.

The St. Patrick's tea held by C.N.P. Nurses Association was very successful. The recreation room of the hospital was decorated with Shamrocks and good luck tokens. Presiding at the tea were Miss H. Clemis, R.N. and Mrs. Joan Dunford, R.N. for the first half and Mrs. I. Richards, R.N. and Miss J. David, R.N. for the second half. A blouse was won by Ann Watson of the hospital staff and the table cloth by Mrs. L. Richards of Bellevue.

Jim Atkinson recently underwent an operation at Holy Cross Hospital in Calgary.

Mrs. I. Smales was one of the eight lucky winners in Alberta March 3rd "Find the Place Contest" conducted by Quix at Edmonton. Her prize was a very attractive soap hamper. Mrs. I. Smales and daughter Morna who arrived in Coleman from England several months ago are relatives of Mrs. J. Shields.

Mr. C. K. Martin of Medicine Hat, was a week-end guest at the home of Mr. and Mrs. M. Tica.

Mrs. McRae, Nelson B.C. is visiting at the home of her daughter and son-in-law Mrs. and Mr. Stewart Murdoch.

Mr. Percy Dickenson, Mr. H. W. Clarke and Mr. F. J. Harquail of Coleman were recent Calgary visitors.

### Lions Club Will Handle Cancer Drive

At a recent meeting of the Lions Club, the members were in favor of taking charge of Cancer Campaign as they have in past years.

Due to pressure of other club activities the cancer drive will not get under way until about May 1st.

The Lions Club is also planning a flower sale for Mothers' Day. They will canvass the town and take orders for flowers and will deliver them on that day. Orders may now be placed with any member of the club. If the sale of flowers is successful, the club plans to help out the C.N.P. Band now being organized.

### Coming Events

The C. W. L. will hold their annual Bazaar, tea and tombola draw on Oct. 25th, in the Italian hall.

The Pythian Sisters will hold their annual Bazaar on Saturday Oct. 11th in the I.O.O.F.

The Women's Auxiliary of St. Paul's United Church will hold their Fall Bazaar on Saturday Nov. 29th.

The Ladies Guild of St. Alban's Anglican Church will hold Tea and grand prize draw in the I.O.O.F. Hall Coleman on Saturday April 26th.

The Polish Society of Coleman will hold a Bazaar and Tombola draw in the Polish Hall on Saturday June 7 from 2:30 to 5:30 P.M.

The Salvation Army Home League will hold a Tea and Sale in the I.O.O.F. hall in May 10th.

**CONDUCT LARGEST PEACETIME ARMADA IN HISTORY**—Members of the directing staff of "Grand Slam" pose with U.S. Admiral Robert Carney, director of the four-nation naval manoeuvres under way in the western Mediterranean, aboard his flagship, the U.S.S. Adirondack. From left are Capt. Roy Messner, U.S.N.; Capt. Alastair D. Robin, Royal navy; Admiral Carney; Capt. Louis Mornu, French navy, and Capt. Nicola Murzi, Italian navy. The manoeuvres are believed to be the biggest in peacetime history.—Central Press Canadian.

**SIoux HOME AFTER SECOND ROUND IN KOREAN WATERS**—Relatives and friends of the crew of H.M.C.S. Sioux gather on the dock at Esquimalt, B.C., as the destroyer docked there after a second round of duty in Korean waters. The Sioux' latest assignment lasted 11 months.—Central Press Canadian.

## R.C.N. Officers Of NATO Staff

COMMANDER FRANCIS LUCAS

CAPT. DESMOND PIERS

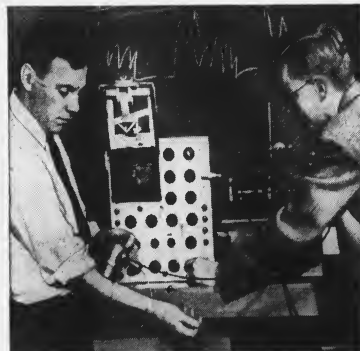

COMMANDER JOHN C. O'BRIEN

Three Canadian naval officers have been appointed to the staff of Admiral Lynde D. McCormick, supreme allied naval commander in the Atlantic. They will be attached to the naval base at Norfolk, Va., which will be the top NATO headquarters for naval affairs. The officers are: Capt. Desmond W. Piers, Halifax; Commander Francis Lucas, Toronto; and Commander John C. O'Brien, Montreal.

2978

**WINS PRIZE FOR "CHICKEN UNDIES"**—Mrs. Eva Anderson, of Harwick, Pa., with one of her prize Minorca chickens, demonstrates the chicken underwear which won for her the grand prize in a national contest to determine the most unusual thing made on a family sewing machine. Mrs. Anderson, in New York City, explained that last Spring, her prize flock was caught in a blizzard during the molting season and she had to act quickly. She designed her two-piece chicken warmers of red flannel with a vest and button-on drawers and her prize Minorcas were saved.

**DETECTS CANCER IN EARLY STAGES**—Research associate Dr.

John J. Wild, (left), of the University of Minnesota, demonstrates in Minneapolis the method he has developed for detecting cancer in its early stages. He uses a device known as an echograph, designed and constructed by electrical engineer John Reid (right). The portable machine employs reflected sound waves to detect cancerous tissue. In a test of 211 patients, it discovered every case in which malignancy was present.

**THIS AERIAL PHOTOGRAPH** shows the remains of homes at the inlet town of Kiritappu on the east coast of the Japanese island of Hokkaido after it had been hit by a tidal wave which followed a death-dealing, destructive earthquake. The ground is partially covered by snow which followed the disaster. United States Air Force planes dropped food and warm clothing to the shivering survivors of the quake.

**REWARDED**—Judge Ewing Cockrell, who has spent the last four of his 78 years campaigning for world peace from his furnished room in Washington, D.C., has received recognition of his labors in being nominated for the 1952 Nobel peace prize. It is the third successive year in which Cockrell, an ex-judge, has been nominated.—Central Press Canadian.

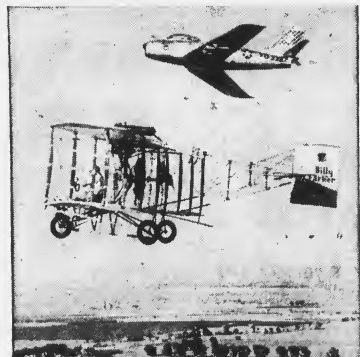

**ALL QUIET ON SUEZ—FOR THE MOMENT**—A British sentry on duty at the Suez Canal, near Ismailia, watches the French transport Pasteur glide smoothly through the waterway that has been the cause of riot and bloodshed. The transport is carrying homeward-bound French troops from another trouble spot—French Indo-China.—Central Press Canadian.

**STRICKEN**—His royal highness, the Agha Khan, ailing since a recent heart attack, is shown on a stretcher attended by his wife, the Gebum Aga Khan and medical personnel before being carried into an ambulance for a trip from New Delhi, India, to Nice, France.—Central Press Canadian.

**UNDISTURBED BY DEATH SENTENCE**—Elias Meek, 21-year-old farm hand from Harrison's Corners, Ont., heard a jury at Cornwall, Ont., bring in a verdict of "guilty" in the murder of Mrs. Allan Algure. He showed no sign of emotion when Mr. Justice H. A. Aylen sentenced him to hang on June 10. Defence counsel C. Horowitz said he would appeal.—Central Press Canadian.

**AIRPLANE PROTOTYPE STILL FLYING**—Aviation progress during the past 40 years is graphically illustrated in this photo which shows a modern Sabre jet flying over a 1912 model pusher biplane above Washington. The Sabre holds an official world's speed record of 670 miles per hour, whereas the pusher does 60 m.p.h.—Central Press Canadian.

**NOMINATED FOR PEACE PRIZE**—Prime Minister Louis St. Laurent, (left), and Hon. Lester B. Pearson, Canadian Minister for External Affairs, who head a list of 27 persons nominated by the Nobel Committee of the Norwegian Parliament for this year's Nobel Peace Prize.
